

Organized by members of

Joint mDL SC

SC17/WG10

Coordinated by

## ISO/IEC 18013-5 mDL Interoperability Party, May 30-31, Louisville, KY, US

Scytales continues to pass all mDL interoperability test events, including the latest one in Louisville, KY, solidifying our leadership as *the* ISO mDL/mID technology front-runner globally.

Task Force 14 on mDL within ISO/IEC JTC1/SC17/WG10 works towards mDL standardization since 2014. Members of Task Force 14 have taken an unconventional innovative approach to assure a high-quality standard: in addition to joint work on the standard, and international review and balloting rounds, a number of "mDL Prototype Interoperability Parties" have been organized. These test events contribute to

- Confirming the feasibility of implementing the standard, leading to interoperable implementations;
- Detailed feedback, disambiguation, clarification and increased quality of the standard;
- Keeping momentum in the market and accelerating the time to market for mDL implementations.

## Utah State RootCA Key Ceremony

A successful Utah State RootCA Key Ceremony was conducted in June 2022, where the first unique root key was produced for the issuance of 3 million unique mobile driver's licenses, a multi-year issuance program with a parallel focus on offering validation services. Thank you, Utah DLD and GET Group NA, for your superb collaboration.

## SCY STUDIOS EPISODE 7

### Global pandemic; Global standards; and Global progress on digital identity challenges

Geoff Slagle visits with Jeremy Grant, the prominent and well-known authority within the fields of identity, privacy, and cybersecurity, who has served in a range of leadership positions spanning government and industry. He serves as Venable's Managing Director of Technology Business Strategy and is a member of the firm's eCommerce, Privacy, and Cybersecurity Group. Jeremy also serves as Coordinator of the Better Identity Coalition, an organization focused on developing and advancing consensus-driven, cross-sector policy solutions that promote better solutions for identity verification and authentication.

## Jared Hubbard, Scytales new Vice President, Operations and General Counsel

As previously announced, [Jared Hubbard](#) has joined Scytales as Vice President, Operations and General Counsel. We at Scytales are delighted and honored to have Jared onboard as we enter the next phase of our journey. This strong recruitment is integral to Scytales overall organizational goals and objectives for the expansion ahead. Jared combines strong business acumen with analytical problem-solving skills and is a great team player with leadership qualities and a keen sense of humor.

## AAMVA Region 4, Utah, 21-23 June

GET Group NA and Scytales proudly showcased the Utah mDL, the first and only fully ISO-compliant mDL in the world. Utah DLD has led the way with the groundbreaking pilot program, now in full production, which demonstrates what cryptographic proof of ID means for the future of mDL around the world.

The GET Mobile Verify is in Utah as seen at the Salt Lake City airport and highway digital billboards. Scytales is proud to be the technology provider.

## Identity Week London, June 28 & 29

The Scytales Team had approximately 85 demos of our ISO mDL/mID offerings over the two days. An overwhelming interest was shown for our world-leading technology in mDL/mID and our booth was full of traffic for the entire event. Thank you to everyone who came by our booth to meet, discuss, get a demo, connect and chat. It was great fun as well as very fruitful and we look forward to continuing the dialogue with all our old and new friends.

Scytales enrolled everyone who participated in a demo in a lucky draw for an iPhone and a Samsung. We are happy to announce that the winner of the iPhone is Anna Rudakova, Sales Director - Platforma365. The winner of the Samsung wishes to remain anonymous.

## BALTIMORE, MD, 13-15 SEPTEMBER

### AAMVA Annual International Conference

Scytales is excited to announce its presence as sponsor and exhibitor at [AAMVA \(American Association of Motor Vehicle Administrators\) AIC 2022](#). We will showcase our mDL stellar technology side by side with our partner [Global Enterprise Technologies Corp. \(GET Group NA\)](#). The Annual International Conference (AIC) is AAMVA's premier event for jurisdictions, industry, and federal partners to share experiences and learn.
